3.3.3 Number of books and chapters in edited volumes/books published and papers published in national/ international conference proceedings per teacher during year

Sl. No.	Name of the teacher	Title of the book/chapters published	Title of the paper	Name of the publisher	Year of publication
1	Dr T Satyanarayana	Engineering Thermodynamics		Scientific International Publishing House	2023
2	Dr T Satyanarayana	Industrial Robot-Integrated Fused Deposition Modelling for the 3D Printing Process	Fused Deposition Modelling of Polylactice Acid(PLA) Based Polymer Composites A Case Study	IGI Global	2023
3	Dr Shaik Raziya	Applied Chemistry		Likhitha Publications	2023
4	Dr T Satyanarayana	Wind energy		Scientific International Publishing House	2022
5	Dr. Tulaseenaidu	Investment Management		Iterative International Publishers	2022

Dr. K. Sivakumar was graduated in Mechanical Engineering from University of Madras in 1997, received his Master's in Design and Production of Thermal Power Equipment's with Specialization in Alternative Fuels from National Institute of Technology, Trichy, in 2003 and was conferred Ph. D. in April 2015 by the Anna University, Chennai. Having over 20 years of experience in teaching and administration, his fields of interest are Energy, Thermal - Turbomachine and Computational Fluid Dynamics (CFD). He is a Life member of ISTE, SAE and IAENG. In his credit, he has over 40 (Forty) Technical Papers published in National /International reputed Conferences/Journals and filed Five Patents with his peers. Authored Four text books. He served as a reviewer for Heat and Mass Transfer, International Journal of Turbo and Jet Engines, Applied Mechanics and Materials, Australian Journal of Mechanical Engineering, Material today: proceedings, Energy Conversion and Management and Journal of Mechanical Science and Technology.

Dr. Satyanarayana Tirlangi working as an Associate Professor in the Department of Mechanical Engineering VIET College of Engineering, has about 12 years of teaching experience. He received his B.Tech degree in Mechanical Engineering from JNTUK and M.E. degree in Machine Design with distinction and PhD in the area of Metal matrix composites from Andhra University, A.P. He has published 15 research papers in refereed international journals and various international conferences and also published 2 books. He has received several best paper awards for his research papers at various international conferences. His areas of research include Composite Materials, Weldings, Renewable Energy Sources and CFD. He is an active member of IEEE and IET.

Dr. Mahesh Joshi working as Sr. Asst. Professor in the School of Mechanical Engineering, MIT Academy of Engineering, has about 15 years of teaching experience. He received his B.E degree in Mechanical Engineering and M.E. degree in Heat Power specialization from Savitribai Phule Pune University and PhD in the area of Alternative Fuel Technology from Symbiosis International (Deemed) University. He has published 16 research papers in refereed international journals and various international conferences and filed one Patent. His areas of research include Alternative Fuel Technology, Engine Testing, and Renewable Energy Sources. He is a Life member of ISTE, SAE and IAENG.

Dr. J. Ananth is presently working as an Professor in the Department of Marine Engineering, AMET Deemed to be University. He has more than 23 years of experience in teaching and administration. He was graduated in Mechanical Engineering (1997) and Post graduation (2000) in Thermal Plant Engineering from Bharathidasan University, Tiruchirappalli and Ph.D (2014) from Anna University, Chennai in the specialization of Solar Thermal Energy. He has a credit of 10 international research publications, and several conference publications. He is an approved supervisor (Ph.D) of Anna and AMET Universities. His areas of interest are Thermal, IC Engines, Renewable Energy and Alternate fuels.

Description & Coverage

Description:
 Polymer composite materials are of prime importance and play a vital role in numerous applications. 3D printed polymer composites have been adopted by the aerospace, medical, and automobile industries. However, many challenges and opportunities for the development and application of 3D printed polymer composites have yet to be covered.

Development, Properties, and Industrial Applications of 3D Printed Polymer Composites concentrates on cutting-edge technologies and materials as well as processing methods and industrial applications. It further discusses case studies, process issues, challenges, and more. Covering topics such as additive manufacturing, medical engineering, and fused deposition modeling, this premier reference source is essential for manufacturers, engineers, business leaders and executives, hospital administrators, students and faculty of higher education, librarians, researchers, and academicians.

- Coverage:**
 The many academic areas covered in this publication include, but are not limited to:
- 3D Printing
 - Additive Manufacturing
 - Bibliometric Approaches
 - Conductive Polymer Composites
 - Fused Deposition Modeling
 - High Performance Polymer Composites
 - Image Processing Techniques
 - Medical Engineering
 - Polymers in Medicine
 - Smart Polymers and Composites

Preface

R. Keshavamurthy (Dayananda Sagar College of Engineering, India), Vijay Tambirathnam (Marigal Institute of Technology, Marigal Academy of Higher Education, Marigal, India), J. Paulo Davim (University of Aveiro, Portugal)

Chapter 1

\$29.50

3D-Printed Polymer Composite: A Bibliometric Approach – What, Where, and Who is Doing Research on This Topic (pages 1-8)

Add to Cart

Preview Chapter

Vijay Tambirathnam (Marigal Institute of Technology, Marigal Academy of Higher Education, Marigal, India), R. Keshavamurthy (Dayananda Sagar College of Engineering, India)

As the ability to fabricate highly complicated computerized geometry makes additive manufacturing a significant technology in the present day, it has a...

Chapter 2

\$29.50

3D-Printed Polymer Composite: A Bibliometric Approach – What, Where, and Who is Doing Research on This Topic (pages 9-30)

Add to Cart

Preview Chapter

Issam Hamdi (Université Abdelmalek El-Isaïdi, Morocco), Francisco Mata Cabrera (Universidad de Castilla-La Mancha, Spain), Jalel El Bahadou (Abdelmalek El-Isaïdi University, Morocco), Juan Carlos Campos Rubio (Universidade Federal de Minas Gerais, Brazil), Wenderson de Oliveira Leite (Instituto Federal de Minas Gerais, Brazil)

Due to the recent innovations in 3D-printed polymers research, this study presents a systematic overview of the area, exposing gaps and interesting directions...

Chapter 3

\$29.50

Properties and Applications of Natural Fiber-Reinforced 3D-Printed Polymer Composites (pages 31-52)

Add to Cart

Preview Chapter

Srinivasan V. R. (Dayananda Sagar College of Engineering, India), Prakash C. P. S. (Dayananda Sagar College of Engineering, India), Praveena E. A. (Nitte Meenakshi Institute of Technology, India)

There is a huge scope for natural fiber-reinforced composite materials, which can be used in 3D printing technology. Non-degradable materials used in the...

Chapter 4

\$29.50

Mechanical and Tribological Properties of Polymer Composites Developed by FDM (pages 53-65)

Add to Cart

Preview Chapter

Pradeep Kumar S. S. (CHRIST University (Deemed), India), Sachit T. S. (Symbiosis Institute of Technology, Symbiosis International University (Deemed), India), Mruthuraya M. (JSS Academy of Technical Education, India), Harish Kumar M. (CHRIST University (Deemed), India), Rajhu Yugaraju (BMS College of Engineering, India), Sandhar Jangam (CHRIST University (Deemed), India)

In the coming years, researchers and manufacturers will be more concerned with the demand for products that are easy to construct and can be rendered...

Chapter 5

\$29.50

Fused Deposition Modelling of Poly(lactic Acid (PLA)-Based Polymer Composites: A Case Study (pages 66-85)

Add to Cart

Preview Chapter

Murugesan Palankappan (College of Engineering, Imam Mohammad Ibn Saud Islamic University, Saudi Arabia), Satyanarayana Tirilangi (Visakha Institute of Engineering and Technology, India), M. Jinnah Sheik Mohamed (Nelfa College of Engineering, India), R. M. Sathya Moorthy (PERI Institute of Technology, India), Srinivas Viswanth Valeti (Aditya Engineering College, India), Sampath Boopathi (Muthayammal Engineering College, India)

In this chapter, a case study on polymer composites made using the fused deposition modelling (FDM) process is exemplified. The fundamentals of the additive...

Chapter 6

\$29.50

About the Author

Mrs. S. Aruna Kumari received her Ph.D from Andhra University, Visakhapatnam in 2017. M.Sc. from Andhra university campus, Visakhapatnam in 1997. She is working as a Professor in the Department of Humanities and Basic Sciences, Aditya Engineering College(A), Surampalem. She has 25 years of teaching experience and has published 10 papers (SCI, SCOPUS, UGC Journals). She has presented 10 papers at national and international conferences.

Dr. B. Kishore Babu is currently working as Associate Professor of Chemistry in the Department of Engineering Chemistry, Andhra University College of Engineering, Visakhapatnam, Andhra Pradesh. He took his M.Sc, M,Phil, Ph.D degrees from University of Hyderabad. In his credit M.sc Zoology from Acharya Nagarjuna University, M.A Lit from Andhra University degrees also added with his passion. He was joined in Andhra University as a Assistant Professor in the year 2006, he has been serving in the same college as Associate Professor since 2019. In his long academic career spreading over about 17 years, he has supervised 23 Ph.D works, written or edited books and contributed about 80 research articles in various professional journals. He has been delivered many invited talks at Various IIT's and Universities. His areas of research interest are Nano chemistry and Nanotechnology, Material Science, Pharmaceutical Chemistry. He did two major projects from UGC and DST-SERB and Eight patents from Chemistry, Biology and Engineering.

Dr. Shaik Raziya received her Ph.D from Andhra University, Visakhapatnam in 2018. M.Sc. from Andhra University Campus, Visakhapatnam she is currently working as Assistant Professor in the Department of Basic Sciences and Humanities, VICT, Visakhapatnam, Andhra University. She has 4 years of teaching experience and has published 7 papers. She has presented 12 papers at national & international conferences and one Indian patent.

About the Book

This text book is the result of teaching a one semester course in Applied Chemistry. This book is aimed at imparting the required knowledge for understanding the importance of chemistry in the field of Engineering. The contents of the course evolved as the interest and needs of both students and faculty. This text book has been exactly prepared in accordance with the syllabus prescribed by J.N.T.U. Kakinada. The salient features of this book is that it is in simple English and topic such as Advance concepts in chemistry was also given an simple explanation for students to understand.

AUTHORS PROFILE

Thiru S.Arulselvan working as an Assistant Professor in the Department of Mechanical Engineering at Annamalai University has about 14 years of teaching experience and 10 years of industrial experience. He received his B.E degree in Mechanical Engineering from VLB Javadi Annamalai College of Engineering and technology, Coimbatore and M.E in Energy Engineering and Management with distinction from Annamalai University. He has published 10 research papers in refereed international journals and various international conferences. He has received best paper awards for his research paper at international conferences. His areas of research include IC engines, Biofuels, Waste plastic oil, Renewable energy systems. He is an active member of Various academic Committees.

Dr. M.Saravanan working as an Associate Professor in the Department of Mechanical Engineering at Annamalai University has 17 years of teaching experience. He received his B.E degree in Mechanical Engineering with distinction and M.E Degree in Thermal Power Engineering with distinction from Annamalai University. He obtained his Ph.D in the area of heat pipe solar collector/simulator. He has published 25 research papers in refereed international journals and various international conferences. He has received best paper awards for his research paper at international conferences. His areas of research include Heat Pipe solar collector/Simulator, Heat transfer, Nanofluids, IC engines, Biofuels, Renewable energy systems. He is an active member of ISTE and Indian Society of heat and mass transfer.

Thiru N.Radhakrishnan working as an Assistant Professor in the Department of Mechanical Engineering at Annamalai University has about 15 years of teaching experience and 8 years of industrial experience. He received his B.E degree in Mechanical Engineering from Annamalai University and M.E in Energy Engineering and Management with distinction from Annamalai University. He has published 8 research papers in refereed international journals and various international conferences. His areas of research include IC engines, Heat pipes, Renewable energy systems. He is an active member of various academic Committees.

Dr. Satyanarayana Tirumangal working as an Associate Professor in the Department of Mechanical Engineering VIET College of Engineering, has about 30 years of teaching experience. He received his B.Tech degree in Mechanical Engineering from JNTUK and M.E. degree in Machine Design with distinction and PhD in the area of Metal matrix composites from Andhra University, A.P. He has published 15 research papers in refereed International Journals and various International conferences. He has received several best paper awards for his research papers at various international conferences. His areas of research include Composite Materials, and Weldings, Renewable Energy Sources and CFD. He is an active member of ISTE and IJI.

About the Author

Dr. Vijaya Jyothi Nethala, is presently working as Associate Professor, Department of Management Studies in Narava, Veda Parishad College for Women and Studies, 15th Visakhapatnam. She holds Doctoral Degree from Andhra University and MBA from Andhra University Visakhapatnam. She has done her Bachelor's degree in Commerce from Jagadgurur University. She pursued her basic education in Vizag. She has 20 years of experience in teaching and research. She has published 29 Research articles in National and International journals. She has one book and some chapters so far. She is under her research scholars doing their research in different areas of Finance, Marketing and Human Resource. Her areas of interest are Finance and Banking.

Dr. A. Tulaseenaidu, PhD is presently working as Associate Professor and Head of the Department, Department of Management studies, Visakha Institute of Engineering & Technology, Narava, Visakhapatnam, AP. He holds Doctoral Degree from Andhra University and MBA from Alagappa University, Tamilnada and M Com from Department of Commerce and Management Studies, Andhra University, Visakhapatnam. He has 7 Years of experience in Teaching and research and consultancy. He has published more than 10 research articles in both National and International journals. His areas of interest are HR and Finance.

P. Swapna Abhishek, is presently working as an Associate Professor, department of management studies in Sanketika Vidya Parishad, PM Paleru, Visakhapatnam. She holds Master of Philosophy from Andhra University and conducting Research and Doctoral scholar of G.U.T. Gunupure, MBA from Andhra university, visakhapatnam along with M Com, PG Diploama in IRPM in Management Andhra university. she has 17 years of experience in Teaching and she published more than 14 research articles in national and international journals. Her areas of interest are Finance and Human Resource Management.
